### Principle Statements

The Berlin Airports do provide all their resident business partners up-to-date technique in communications, future oriented technologies, and customer service considering each airports characteristics.

The utilisation of our consolidated service package is provided in accordance with our "general business terms" for communication equipment and services at the Berlin Airports.

All service conditions offered, are based upon competitive commercial market prices.

All prices are without VAT.

This latest version of Regulation of Remuneration supersedes all previous editions.

### Emergency service is available 24 hours daily under telephone:

Airport Berlin-Schönefeld -SXF-  
Airport Berlin-Tegel -TXL-

### Explanation of Remuneration

The charges be distinguished in one-time charge and monthly charge.

#### Installation charge

The Installation charge is a one-time fee for the installation and commissioning of devices. Requirements causing changes of location by repositioning receptacles, increase of demand beyond the existing level, will be charged separately based on the effort involved. Disconnections- or dismantling charges are also based on the effort. Moving within or to another building is charged as disconnection, including (first-time) installations are charged in accordance with the regulation table.

#### Basic charge

The Basic charge is a monthly charge for the operation of provided communication connections.

#### Leasing charge

The Leasing charge is a monthly charge for providing communication appliances. All services for emergencies and repair are included. Excluded are costs for incidents caused by the user, based on intention or negligence. Die Aufwendungen für Entstörungen und Reparatur der überlassenden Geräte, sofern sie nicht durch

#### Service charge

Service charges are one-time requirements for additional services not included in statements above. It includes costs for special requested services.

#### Call connection fees

Call connection fees are subject to change without notice, based on current tariffs of the cooperating public network provider. These costs are invoiced (one-to-one) through the airport to the customer. Discounts for monthly call connection fees are being granted, based upon total volume of connections, in accordance with the discount tables (from page 11). Telephon voice- and FAX-Service within the Corporate Network of the Berliner Airports is provided free (no costs).

### Notes

#### Important Note on BBI construction site

Please note that prices for the installation and use of information and communication technology at the BBI construction site, differ from this Compensation Regulation. Please ask for a separate offer.

#### Informataion for order

Standard orders will be completed within 5 working days by our technicians. Does a standard order within 24 hours will be realized a Express surcharge must be paid plus the prices quoted in the Regulation of Remuneration.

Depending on the service and amount of quantity structure, the delivery times very greatly. Exact details are available as part of a detailed offer, which we will be happy to elaborate.

## 12. Connection Charges

### General terms

The Berlin Airports maintain a contractual relationship with the German Telekom AG (DTAG) as a provider for telecommunication services via wired network and mobile network. Resulting from the advantages there in (price reductions) we convey these to our costumers by a percentage rduction.

In general all tarif units are applied and counted in accordance with the "General Business Terms" of the DTAG, for connections into the wired network and mobile network. One tarif unit zone 2-9 is charged with 0,0529 Euro. The telephone display shows each tarif unit with 0,06 Euro, but infact 0,0529 Euro are actually charged.

Online-connections are charged by singular event of engagement with 0,32 Euro, and the connection duration with 0,016 Euro per minute, if settlement is not made directly with the provider (contract). All price reductions will be be graded individually by connection zones (distance) and tarif units (total of connection fees) as shown in the following synopsis bellow. These discounts apply only for the period of the provider contract with DTAG!

<b>4902</b>	Connection zone 2	City / Region
<b>4904</b>	Connection zone 4	Germany
<b>4907</b>	Connection zone 7	Mobile telephone provider
<b>4908</b>	Connection zone 8	Europoean Unions
<b>4909</b>	Connection zone 9	World (without EU)
<b>4910</b>	Connection zone 10	Online-Provider
